

# Dimensional Two-Year Diversified Fixed Interest Trust

ALL DATA AS AT 30 JUNE 2010

## OBJECTIVE

To maximise the expected returns of a broadly diversified portfolio of short-term, high credit quality, domestic and global fixed interest securities. The Trust is designed to provide liquidity and dampen overall portfolio volatility.

## PORTFOLIO CHARACTERISTICS

The Trust invests in high credit quality domestic and global fixed interest securities, with a maximum maturity of 2 years. Foreign currency exposure is hedged back to the Australian dollar. The Trust uses a variable maturity approach which involves no interest rate forecasting. This approach seeks to identify the countries and maturity ranges with the highest expected returns and generally increases country allocation or extends maturities when the expected returns are significantly higher for a country or for longer term securities.

The Trust invests in a broad range of securities denominated in currencies from various countries including Australia, Canada, Denmark, Europe (Euro), Japan, New Zealand, Sweden, Switzerland, UK and US. The Trust may invest in the following securities:

- (i) Obligations issued or guaranteed by Australian and foreign governments, their agencies and instrumentalities;
- (ii) The obligations of other eligible Australian and foreign issuers;
- (iii) Money market securities and repurchase agreements from eligible issuers; and cash.

Eligible issuers must generally have a short term rating of at least A1 or, if the issuer does not have a short term rating, it must have a long term rating of at least AA. The Trust will enter into forward foreign currency contracts to hedge against fluctuations in currency exchange rates.

## SHORT TERM CREDIT RATING DISTRIBUTION FOR ALL SECURITIES<sup>1</sup>

A1+	A1
100.00%	0.00%

<sup>1</sup> The short term credit rating is based on a composite of ratings from S&P and Moody's for all securities in the portfolio. If a security has both a S&P and Moody's rating, the higher rating is used. For some bonds that do not have short term ratings the short term rating is inferred from the underlying issuer credit ratings.

## LONG TERM CREDIT RATING DISTRIBUTION FOR BONDS<sup>2</sup>

AAA	AA	A
75.74%	24.26%	0.00%

<sup>2</sup> The long term credit rating is based on a composite of ratings from S&P and Moody's. If a security has both a S&P and a Moody's rating the higher rating is used. Note that many short term issuers do not have long term ratings, and hence the long term distribution applies to bonds only.

## PRODUCT FEATURES

Open for investment	December 2005
Net Asset Value of the Trust	\$323m
Transaction Costs Allowance	±0.00%
Actual ICR <sup>3</sup> for year ended 30th June 2009	0.40%
Income Distributions	Half Yearly
Longest Maturity	1.96 years
Average Maturity	1.33 years
Modified Duration	1.29 years

<sup>3</sup> The actual ICR for the 12 month period to 30 June 2009 has been obtained from the annual report and other calculations for the Trust for that period. The actual ICR includes the management fee, and also includes any waived or deferred management fees and expenses which are being recovered. The actual ICR includes GST after taking into account any expected reduced input tax credits.

## PERFORMANCE<sup>4</sup>

	3 mth	6 mth	1 yr	3 yr	5 yr	7 yr	10 yr
AUD	1.54%	2.84%	5.17%	6.30%	N.A.	N.A.	N.A.
NZD	-3.54%	2.02%	3.34%	10.30%	N.A.	N.A.	N.A.

<sup>4</sup> Returns for periods 1 year or less are actual. Returns for periods greater than 1 year are annualised. The performance presented is historical and is not indicative of future performance. Returns are net of fees and expenses and assume income is reinvested in additional units and that tax has not been deducted. Returns are volatile and can vary from year to year.

## SECURITY TYPE

<sup>5</sup> Includes securitised Debt instruments, Commercial Paper, NCD's and Bank Bills.

<sup>6</sup> State and provincial governments, government agencies and supranationals.

<sup>7</sup> Australian and foreign governments.

## COUNTRY ALLOCATION<sup>8</sup>

<sup>8</sup> Based on currency of security.

### Disclosure and Disclaimer

The material above is provided for information only. No account has been taken of the objectives, financial situation or needs of any particular person. Accordingly, to the extent this material constitutes general financial product advice, investors should, before acting on the advice, consider the appropriateness of the advice, having regard to the investor's objectives, financial situation and needs. This is not an offer or recommendation to buy or sell securities or other financial products, nor a solicitation for deposits or other business, whether directly or indirectly. A Product Disclosure Statement (PDS) for the Dimensional Australian Resident Trusts, under which offers to invest in these trusts are made, is available from the issuer of the PDS, DFA Australia Limited (ABN 46 065 937 671 Australian financial services licence no. 238093) or by download from our website at [www.dimensional.com.au](http://www.dimensional.com.au). Investors should consider the current PDS in deciding whether to invest in the trusts, or to continue to hold their investments in the trusts. Unless an exemption applies, anyone wishing to accept the offer in the PDS will need to complete the application form accompanying the PDS. Note that the performance presented is historical and is no guarantee of future performance. DFA Australia Limited is the manager and responsible entity of the trusts and in that capacity receives fees from the trusts, details of which are set out in the current PDS.
